Gentlemen:

For the year 1968, the legion would like to respectfully request that the sum of Two Hundred Dollars (\$200.00) be allowed for Memorial Day, as this year we will have to bring in an outside band and as you well know everything seems to be going up in price. On behalf of the American Legion may I express our deep appreciation for the fine cooperation we receive each year. With kindest regards, I remain.

Respectfully,
Roland W. Paige

REPORT OF THE LIBRARY TRUSTEES

5,518 books, magazines and records were borrowed from the main and branch libraries of Hampton Falls by 1,922 visitors, during 1967, according to Mrs. Thayer Edgerly the Librarian.

A total of 127 new books, and 326 donated books were added to the shelves and files during the year. An outstanding and vitally needed addition of an encyclopedia Americana has been ordered and will be paid for through the cooperation of the New Hampshire State Library Association, the Friends of the Library and the Town.

According to plan, the trustees have had the large, unused platform on the floor of the library removed to make room for a children's section. The "Friends" have donated a set of small chairs and member Mrs. Sherman Brickett, the exceedingly popular children's storyteller, makes good use of them regularly.

The group meets on the third Wednesday of each month at 8:00 p.m. in the Library. Everyone is cordially invited to attend these stimulating meetings. English Professor Guaynne Doggett, of the University of New Hampshire recently addressed the group on the subject of "College and the College Student".

The "Friends" have contributed much time to repairing worn books and removing outdated material from the shelves.

The Trustees, on behalf of the town are grateful to Mr. and Mrs. Ernest Brown and their daughter, Shelley for their generous gifts of two badly needed bookstacks. The gift is intended as a memorial to their parents, Frances and Arthur Brown. Two Additional stacks were purchased by the town for the many new books we have been able to buy through our membership in the

State Library Association and for the generous donations of books from the townspeople.

Lamps have been ordered installed on each of the stacks in the library to improve the lighting.

Other improvements have been made inside the library. Modest kitchen facilities will make entertaining easier for volunteer hosts at public meetings.

The town has extended a water line to the building and we hope for the voters to approve the special article in the warrant to install a septic tank system.

A comprehensive library policy is being drawn up by the trustees in compliance with the rules of the State Association and it will be published when it has been completed.

We wish to thank those who have contributed to the betterment of the Library.

THE FRIENDS OF THE LIBRARY

The Friends have had an active year. Their aims are to interest and stimulate townspeople in attending and taking part in library activities and monthly meetings. To assist librarians in repairing and cataloguing books.

The Friends fund raising projects have been whist parties and a bake sale. Some of the money realized from these projects was used for purchasing new books,

and also children's furniture. Christmas decorations were donated by the Friends.

To interest the children, the "Friends" sponsor a monthly story hour and an annual book review.

To all townspeople - help in anyway to improve our library, it also improves your Town.

Join us at our monthly meetings, they have proven to be of great interest.

FIRE DEPARTMENT REPORT — 1967

I feel that we have been quite fortunate in not having any large or serious fires in 1967.

Throughout the year we have purchased new helmets, booster hose, four extinguishers, fitting, etc. We have worked hard keeping our equipment in A-1 condition; improving and increasing our needs and wants. The Ladies' Auxillary deserves a big round of applause for their support and financial assistance.

We had three bean suppers at the fire station, the fourth one was held on the Common following the Village Green Fair in June, which was an eventful day.

It gives me a great deal of pleasure to have such a fine group of men in the department, and we hope we can serve you, the townspeople, of Hampton Falls in the coming year 1968.

As in the past years we the officers and men invite anyone to be part of the department or just drop in the station.

Regular business meetings are held the first Tuesday of every month, and all other Tuesday nights are work parties or drill with the equipment.

Eugene A. Heal; Chief

TOWN WOMENS' AUXILIARY OF THE VOLUNTEER FIRE DEPARTMENT

The function of the Auxiliary is to support the Volunteer Fire Department. This year the sum of \$1600 was contributed to the Department, an amount surpassing the financial support of previous years.

Membership in this organization is open to all women in the town. Interesting and varied programs are offered at the meetings which are held at the fire station on the first station on the first Monday of each month. With the growth of the town, membership should increase in support of this civic group.

The Village Green Fair, held in June with the cooperation of the Department, netted \$1,100. This will be an annual affair, and its continued success will depend on assistance from the citizens of Hampton Falls.

Other money - raising projects included the Annual Firemens Dance, food sales, Fire Wardens supper and card parties.

The Auxiliary thanks all who contributed to make 1967 a profitable year.

As Chief of Police of Hampton Falls, I submit this report to you, having discharged my duties to the best of my abilities and hope that the town has realized the difficulties encountered this past year as listed in the foregoing report.

Not listed in the report was the much appreciated help received from surrounding towns, as well as the Sheriff Dept. and the State Police. Without their help, our budget would have far exceeded the amount shown.

At the present time, we have available a base station and three radio equipped cars, one of which has a second radio communicating directly with the Sheriff Dept. These have proved to be a great factor in police communication, since State Police Station A is closed after 1:00 a.m.

In addition to what has been spent by the Town, equipment that has been bought this year by the personal funds of the members of the department is listed as follows:

Chief Dail - Uniforms and Equip.	\$ 71.22

Sher. Dept. Radio	300.00
Officer Pierce - Uniforms & Equip.	99.33

It is my regret that the department could not stay within the budget as appropriated. However, the increase of crime in our area has made it impossible.

REPORT OF THE CONSERVATION COMMISSION

This past year your Conservation Commission has worked for you in the interest of conserving the marshes. This is one of the most pressing needs in conservation at this time. Working closely with the commissions of Hampton and Seabrook and The Society for the Preservation of New Hampshire Forests, we have brought out a pamphlet on Marshes as a joint effort. It is the intent of this pamphlet to educate people as to the value of the marshlands.

We would like to thank the local Boy Scouts for their efforts in placing and maintaining barrels for trash at the Hampton Falls Landing.

We shall continue to work in the best interests of our citizens for conservation and recreation in our community and state.

We welcome and appreciate the support offered by our fellow citizens.

HAMPTON FALLS SCHOOL WARRANT

State OF New Hampshire

To the Inhabitants of the School District in the Town of Hampton Falls, in the County of Rockingham, qualified to vote upon District affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE TOWN HALL IN HAMPTON FALLS, ON THE EIGHTH DAY OF MARCH, 1968, AT FOUR P.M. IN THE AFTERNOON, AND TO CAST BALLOTS FOR CANDIDATES FOR THE FOLLOWING OFFICES:

1. Moderator for the ensuing year.
2. Clerk for the ensuing year.
3. Member of the School Board for the ensuing three years.
4. Member of the School Board for the ensuing year.
5. Treasurer for the ensuing year.

YOU ARE ALSO NOTIFIED TO MEET AT THE SAME PLACE AT EIGHT O'CLOCK IN THE EVENING OF THE SAME DAY TO ACT UPON THE FOLLOWING SUBJECTS,

6. To see what action the District will take in relation to reports of Agents, Auditors, Committees, or Officers chosen.

7. To see if the District will raise and appropriate the sum of \$2,700.00 to purchase and install a fire detection system in the Lincoln Akerman School, and vote to authorize the School Board, as agents of the District, to take such action as may be required to effectuate the purpose of this article.

Note: The sum proposed will provide heat detectors throughout the building that will set off the internal

building fire alarm system as well as the alarm at the fire station if a fire occurs in the building. The sum of \$1,500.00 would be needed to provide the same system with an external alarm on the building instead of direct connection to the fire station.

8. To choose Agents, Auditors, and Committees in relation to any subjects embraced in this warrant.

9. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School Officials and Agents, and for the payment of statutory obligations of the District.

10. To transact any other business that may legally come before said meeting. Given under our hands and seals at said Hampton Falls this 14th day of February, 1968.

Report of the Superintendent of Schools

To the Members of the Hampton Falls School Board:

I respectfully submit my second annual report to you as superintendent of schools in the Hampton Falls School District.

One of the most complex tasks facing any educator in today's world is that of attempting to cope with change. The changes are coming at us with such rapidity that it is difficult to understand change let alone try to control it.

One significant change and one which all of us definitely understands clearly is the mushrooming size and complexity of the education enterprise. Nationwide the facts are staggering. This Fall, for instance, there were 57 million children and youth in school. This is over one-fourth of the population of the United States! Over 44 million were in public elementary and secondary schools, and even more startling, the annual increase since 1960 has exceeded one million every year.

Certainly these facts will cause some eyebrows to stretch upward. The various and several ramifications of these statistics poses many a problem across the land especially to those closely related to the educational arena. What ARE some of the implications one might ask?

1. Children now come to school younger and stay longer than ever before in history.
2. educational level of achievement has shown a

sharp and unmatched jump forward, from 8½ years in 1940 to an increase of 12 years in 1970, it is estimated.

3. Giant strides in school district reorganization have been accomplished.

Recent figures show that the nation has consolidated its 127,244 school districts into 23,000 in a short 30 years. It should be pointed out here that this consolidation was done NOT to save money but to EDUCATE better and more effectively.

4. We must be careful that bureaucracy does not dampen a teacher's willingness to try out new methods and techniques, study research findings, and to pattern their methods to meet the needs of the local student.

5. School facilities are not keeping pace with the surging enrollment.

6. Fewer and fewer of the brighter college graduates are entering the teaching profession for several reasons chief of which is the salary being offered, although the salary structure is showing marked improvement.

7. There is a growing militancy amongst the teacher group. They are being better trained at the negotiation process than are the administrators and school board members. Teachers are concerned with over-sized classes, duty-free lunch periods, fringe benefits equal to those being paid other town employees, to mention just a few.

8. Education costs money. Public expenditures for education at all levels now approximates fifty billion dollars per year. In 1955 these expenditures were approximately eighteen billion.

Hampton Falls made an important school building decision last year paving the way for two additional classrooms, a storage area, and nurse's room. Just this

morning I visited the school to observe the progress being made. Within a week or so we will be moving our fifth grade from its temporary location to the Akerman School. The Townspeople of Hampton Falls, I believe, will be pleased with this new addition. Other internal changes will be made to free the "activity room." This will make space available for a central library and a surplus teaching area.

Ellen MacAuley, teacher of grade one, had to terminate her teaching duties in early November for health reasons. We were fortunate to find a replacement, Miss Marsha Sibik who is a graduate of Plymouth State College.

The live enrollment figures as of November 30, 1967 are shown in the chart below:

1967-68		
Grade	Enrollment	Teacher
1	29	Marsha Sibik
2	25	Barbara Brewster
3	31	Connie Dumont
4	28	Doris Finnigan
5	14	Marilyn Parkhurst

Last year your school board approved a plan to acquire the services of a reading teacher. This person was to be shared with two other smaller towns in Union 21, namely South Hampton and New Castle. Unfortunately this office was not successful in finding a qualified candidate. I hope that I might have better luck in finding someone so that we can get this program moving.

I must salute the classroom teachers for their efforts from day to day on behalf of the children they serve.

A good school system is dependent upon the quality of its teachers.

Adequate salary schedules for classroom teachers have been the topic of considerable concern by school board members. This is a serious matter and should not be thought of lightly. New Hampshire is in the midst of an acute teacher shortage. It is most difficult to find qualified staff members willing to teach in our communities at the present salaries being paid. We are geographically situated in a difficult area with the higher paid positions just a few miles over the border. In order to keep the staff we have at present there must be a major upward adjustment made and this will be the year for it. Hampton Falls does not stand unique in this dilemma for this same problem is being delt with all across the state. Within a week or so there will be a full scale investigation of educational problems existent in this state. Of course, you and I realize the crux of the problem is money and where it comes from. Local communities in New Hampshire are now supporting education at the highest percentage rate in the nation, while state suport leaves much to be desired. In the latest ranking, New Hampshire is 49th in the nation when one looks at state support for public schools. The local New Hampshire communities contribute 84.3% toward the cost of education. This is the highest in the United States. It will be unfortunate but inevitable for some communities in this State who will choose not to deal with the teachers equitably. Time alone will tell.

1967 has been an active year in studying the school curriculum. This will be the case for many years to come since there are so many changes taking place with unbelievable rapidity. Many of these changes are finding their way into classrooms via teaching methods, techniques, skills and procedures. It is commendable that study groups first are able to define problems; secondly

that they strive to arrive at solutions. Curriculum study takes place after the children are dismissed. Some of it takes place into the late evening hours. Several school systems put teachers to work during the summer months to accomplish this task.

During the course of the year among other things my duties take me to classrooms observing teachers and children busily engaged in the teaching-learning process. It is rewarding indeed to be present to witness a child, who after a failure or two, finally reports that he has "caught on" to some important skill. Equally rewarding to me is to observe effective teaching. I find that we have teachers who show interest in wanting to improve their instructional methods.

In conclusion may I add that my association with the Hampton Falls school has been most rewarding to me. I am pleased to be playing a part in shaping your educational system.

Respectfully,
Paul L. O'Neil

FINAL REPORT
OF THE
COOPERATIVE PLANNING BOARD
SUPERVISORY UNION #21

At the March 1965 meeting, the School Districts of Hampton, North Hampton and Hampton Falls each voted to create a Cooperative Planning Board. The Board, composed of three members from each Town, has submitted progress reports to the 1966 and 1967 District Meetings.

A list of recommendations were prepared during 1965, and a summary submitted to the 1966 District Meetings.

A cooperative school system from Kindergarten through Eighth Grade was studied by three committees as a means to accomplish the recommended changes.

To summarize the work of the Committees to prepare this final report, a review was made of the many changes in the schools since March 1965.

It was encouraging to note the number of Board recommendations that have been put into practice.

This was made possible by increased cooperation between the School Districts of the three towns.

One of the main objectives of the Board was to give all the students equal preparation for Winnacunnet High School.

Since significant progress has been made toward this objective, the Board does not feel that the time is appropriate to suggest a cooperative school system.

If progress falters, however, considerable groundwork has been done to give a future planning board one solution to the school's problems.
